ReSound Enya™

The value of
hearing well

ReSound

rediscover hearing

So many of life's pleasures depend on good hearing. Conversations. Children's laughter.

For most people, hearing loss is gradual. You hardly notice it. But you do notice some things. Conversation becomes harder to follow and makes you tired. And you forget about some of the small sounds that enrich your everyday life, like birds singing.

The excellent sound quality of ReSound Enya™ means you use less effort to enjoy life in all its richness. And you'll have more energy to spend quality time with your loved ones.

A good
conversation
is invaluable

ADVANCED HEARING TECHNOLOGY

- Identify and understand clear speech in noisy environments
- Enjoy a comfortable listening experience in noise or wind
- Go through your day untroubled by whistling sounds, thanks to digital feedback suppression
- Get relief from tinnitus with a built-in Tinnitus Sound Generator

Connect with the ones you love

Enjoy easy, relaxing conversations on the phone. Simply pair your ReSound Enya wireless hearing aids to your ReSound Unite™ Phone Clip+ and stream phone calls with crystal-clear sound directly to your ears. Or stream your favorite music in stereo – adjusted to your specific hearing loss.

When you aren't on the phone, you can use your Phone Clip+ to change the volume and program settings of your hearing aids.

RESOUND WIRELESS ACCESSORIES

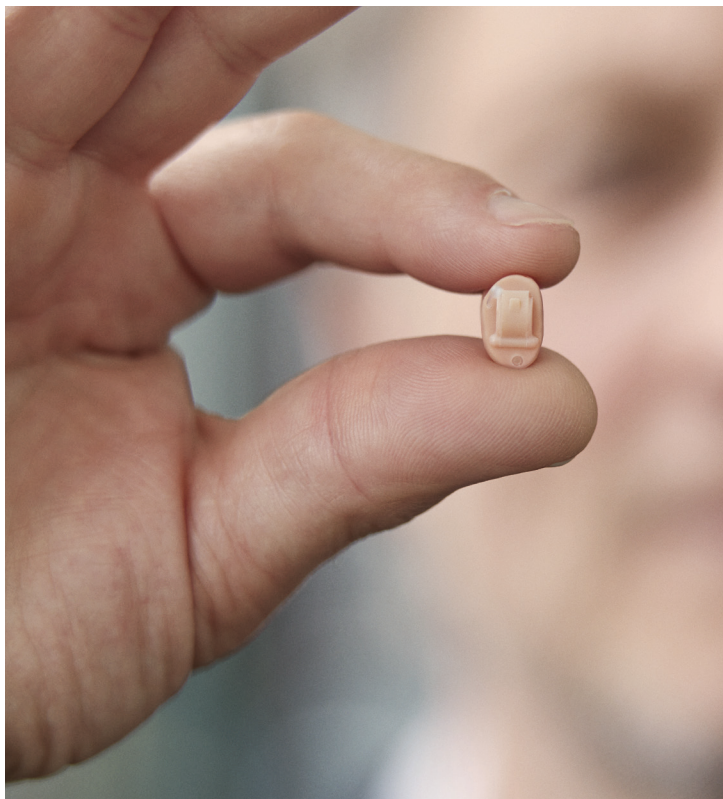

- Stream stereo audio from your TV, computer or music player directly to your hearing aids with the TV Streamer 2
- Hear better in background noise or over distance when the speaker wears the ReSound Micro Mic or ReSound Multi Mic
- Adjust volume, change hearing programs or mute your hearing aids with the Remote Control 2

FREE RESOUND APPS

- ReSound Control™ gives you discreet control of your hearing aid volume and program settings
- ReSound Relief™ offers layered soundscapes, guided relaxation exercises, and additional activities that create a completely personalized tinnitus solution

Both apps are available for iPhone® and Android devices.

Quality and comfort you can count on

Available in a wide range of attractive, discreet designs, ReSound Enya delivers all-day listening and wearing comfort. And because every component is coated with iSolate™ nanotech, your hearing aids come with long-lasting protection from water, dust and earwax.

So, whether your hearing loss is mild or severe-to-profound, you can find a ReSound Enya hearing aid that not only fits into your lifestyle but also stands up to everyday life.
